SOURCE: 2005 CBEDS data, California Dept. of Education. County and state averages represent continuation high schools only. Because teachers can hold more than one type of credential, percentages rarely add up to 100 percent.

Our teachers bring an average of three years of teaching experience to their classes. All of our teachers have a full credential. Statewide about 93 percent of continuation high school teachers hold this credential.

COLLEGE PREPARATION

Two factors indicate how effectively we prepare students for college: whether students are taking the courses required for college admission, and where students ultimately enroll in the state's public college system.

MEASURES OF ACADEMIC PROGRESS

ACADEMIC PERFORMANCE INDEX (API): This is California's way of rating schools. Using student test scores, the API places schools on a scale from 200 to 1000. Please note that as of September 2006 our school had not been issued an API. The state expects schools to attain an API of 800 eventually. Many continuation high schools account for their results using the [Alternative School Accountability Model \(ASAM\)](#). If you see "N/A" in the tables below, ours may be an ASAM school.

ADEQUATE YEARLY PROGRESS (AYP): This is a federal measure that requires schools to meet test score goals schoolwide and for all subgroups* of students. We met all six criteria for yearly progress, according to the US Dept. of Education. As a result, we succeeded at making Adequate Yearly Progress. Note that the number of criteria may vary from school to school.
